Prayer requests as of February 16th:

Re **Kathryn Travis** from Bob: “We learned Tuesday afternoon that Kathryn's bone marrow biopsy tomorrow had to be cancelled and rescheduled. The doctor judged that in view of Kathryn's very erratic heart rate and the stress her body is under, it was not acceptable to perform the biopsy in the office. They will be rescheduling it as an outpatient procedure under anesthesia at St. Luke's Vintage, but we don't have a date yet.” Bob and Kathryn were in class today. Yay! Please continue praying.

Lenora Holt reports that **Tommy Warwick's** knee replacement surgery on Monday was successful, and he is home. Pray for Tommy's full recovery and for Lenora as caretaker, as she is also recovering from very recent surgery.

Further update from **Lenora**: "**Tommy** is getting better and working hard at his therapy and exercise and walking with a walker. I am doing well and improving too. We are very grateful for the prayers and so thankful to the Lord for His mercy and grace. We are so very blessed. We won't be in class for a while, but we're getting better every day."

Please add **Patti Natole** to your prayers. She continues to have pains and spasms in her upper back and shoulders. She went to the ER on Monday, and they indicated arthritis was the issue. She received medications which are helping today.

From Linda Storey: "**My son Jim** is doing much better (dealing with bacterial meningitis)! He was enough to leave the hospital on Wednesday and go home. They put a Picc line for daily antibiotics for 6 to 8 weeks. Thank you for your prayers. Please keep him in prayer for a few more weeks."

From Marie Hudson: Re **Chris and Richard Clark's daughter Monica**: After viewing Monica's MRI, it was determined that she needed a mastectomy, not a lumpectomy. She will have a double mastectomy and reconstruction surgery on March 5. It will be a 7-8 hr. surgery. Please pray for Monica, the doctors, & the family. In addition to this, their son, Jason, has been dealing with a detached retina. The family really appreciates your prayers.

Also: **Yvonne Henderson** had an MRI on her kidneys this Friday, the 14th. Please pray that she can get some answers to her severe pain.

Update from **ZiZi Asfour** to Cheri Arras: "I have the beginning of leukemia. They are waiting for one more blood test to come back. Praise God I do not need chemotherapy! They will start on one med to increase my hemoglobin to start with and track my progress monthly. I was told to enjoy life, and I was told I can travel. I am thrilled to have caught this early. All your prayers and God's blessings have been outstanding! Thank you all!!!!!! To God be the glory!"

From Esther Markum: **Louvada Wright** was transferred to Cypress Point Health and Wellness for rehab. "Big PTL is that my kidney has regained full function. I won't have to

have dialysis anymore and the port has been removed. Now I just need prayers for walking.”

From **Maxine Doyley**: “My surgery has been put on hold for now. I have been given the option of taking steroid shots also physiotherapy. In the event that this doesn't work, surgery will be revisited. Thank you all for your prayers.”

Sara Black's daughter, Angie, has ceased having seizures. She still deals with migraines and was in bed today. Please keep her in your prayers, also.

Wilma Wilder is recovering well from her hip replacement surgery, according to Charlotte Berg this morning.
